

Defensive Vehicle Assault Course

Bringing the Street to the Range

Defensive Vehicle Assault Course will give responding patrol officers and tactical team members the tools they need to effectively survive a deadly attack while mounted in a patrol vehicle. During this class the student will learn and demonstrate the skills required to excel in this high risk environment. Subjects covered include vehicle type considerations, Seated Shooting Techniques, Counter car-jacking Techniques, Vehicle Exit Techniques, Utilizing the vehicle for effective cover, Shooting through the Windshield and much more.

Officers will receive 4 hours of CLEET credit

Practical Shooting also provides basic to advanced firearms training for handgun, patrol rifle, long rifle (sniper) and select fire. All courses are CLEET accredited and taught by CLEET, FLETC or NRA Law Enforcement Instructors.

For more information on this course or to inquire about future training at Practical Shooting or hosting a course at your range visit our web site
